

**Amendments to the Claims:**

Please cancel without prejudice original claims 1-25 and the replacement claims 1 and 17 as presented in the underlying International Application No. PCT/EP2004/011934.

Please add new claim 26 as indicated in the listing of claims below.

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1-25 (canceled)

Claim 26 (new): Method of monitoring messages addressed to a first receiver (E1) in which the first receiver (E1) is a first set-up user account in a communications service and is set up such that it has an “undesirable” receiving device (UNE),  
the first receiver (E1) is set up such that access by a user of the first receiver (E1) to the “undesirable” receiving device (UNE) is prevented,  
an “undesirable” message category is defined which indicates messages which are to be prevented from being delivered to a user of the first receiver (E1),  
it is checked whether a message (M) addressed to the first receiver (E1) falls into the “undesirable” message category,  
the message (M) is allocated to the “undesirable” receiving device (UNE) if the message (M) falls into the “undesirable” message category, and  
the first receiver (E1) is set up such that the “undesirable” receiving device (UNE) can only be accessed by a second receiver (E2), which is a second set-up user account in the communications service.
